Avoid excessive rubbing and vacuuming at high power levels to prevent damage to fabric fibers. In case of stains, gently wipe the spot with a damp cloth or use a mild detergent diluted in warm water, then wipe dry.
14. **Technical Inspections:** To maintain the functionality of the furniture, regularly perform technical inspections, including tightening screws and checking the stability of the structure.
15. **Protection from Sharp Objects:** During the use of upholstered furniture, avoid contact of the upholstery with sharp objects, such as knives or scissors, as they can cause permanent damage to the material.
